Subject: requested SCE & G rate hike

To Whom it may concern,

My name is Brenda Creson and I lost my job back in November. I have no income and am living off of credit cards and my checking account. Not only has SCE & G requested increases previously, and been granted them, now the City of Columbia is raising my water rates. Groceries keep going up, what I have to pay for mandatory health insurance costs me 5 times what it did when I was working.

According to an article in the State newspaper, SCE & G has already received 27.7% total increases since 2009. This is absurd. I do NOT want to pay for their financial charges to pay to build these two reactors, and then start paying for construction costs,,,,,,,,, and THEN start paying for the power IF and WHEN they come online. I hope not, but I might be dead in another 4 or 5 years.

I can not afford another increase to this corporation, and I hope you will deny them this current request for another 3% increase.

Thank you for your time and consideration,

Brenda Creson
